

## Clothes Washer Rebate: \$25, \$50, or \$100

The following clothes washers are eligible for a \$25, \$50, or \$100 rebate, for customers who purchase water from a Saving Water Partnership utility. The rebate is based on how much energy and water a machine saves: the more the machine saves, the higher the rebate. This rebate program is sponsored by the Saving Water Partnership and Seattle City Light.

Compared to a standard washer...

- ★ **One Star:** reduces both energy and water use by **27%** or more  
 ★★ **Two Stars:** reduces both energy and water use by **35%** or more  
 ★★★ **Three Stars:** reduces both energy and water use by **42%** or more

One Star \$25 utility rebate	Two Star \$50 utility rebate	Three Star \$100 utility rebate

### notes:

- Customers of the 18 Saving Water Partnership water utilities are eligible for the rebates indicated above, regardless of whom provides electricity to the residence.
- Seattle City Light customers who do NOT purchase water from a Saving Water Partnership water utility (this includes parts of Tukwila, Skyway, and Lake Forest Park) are eligible for half of the rebate indicated above.
- If the clothes washer is not listed above, it is NOT eligible for either the Seattle City Light or the Saving Water Partnership rebate. \* Indicates there may be additional numbers or letters at the end of the model number.
- Ventless washer/dryer units are NOT on this list** because they lose some or all of their water savings when water is used during the “condensing” drying cycle.
- Machines in each category must meet that category’s savings criteria for **both energy and water**. For example, some of the “two star” machines save enough energy to be considered “three star” for energy alone, but the “two star” water-efficiency of the machine keeps it as a “two star” rather than a “three star” machine.
